PROFESSIONAL SUMMARY

Data Engineer and Software Developer with hands-on experience building internal hospital systems, data-processing workflows, financial-system integrations, and full-stack web applications. Experienced with Python, SQL, Pandas, Django, FastAPI, APIs, and relational databases, with a background in developing practical software solutions for healthcare and business operations.

TECHNICAL SKILLS

Programming / Backend: Python, Django, FastAPI, Flask, PHP, Laravel, Node.js, Express.js

Data & Databases: SQL, Pandas, MySQL, MSSQL, SQLite, MongoDB, InterBase

Front End: HTML, CSS, JavaScript, Bootstrap, ReactJS, AngularJS, Material UI, jQuery

APIs & Tools: REST APIs, QuickBooks Online integration, Postman, GitHub, GitLab

PROFESSIONAL EXPERIENCE

Data Engineer & Software Developer ICT Committee Chairperson <i>Cagayan de Oro Medical Center (COMC)</i>	Sep 2025 - Present
- Lead and coordinate ICT-related initiatives, technology planning, and cross-department collaboration as ICT Committee Chairperson. - Develop and maintain internal software solutions supporting hospital operations and administrative workflows. - Designed and developed a Queueing System to support organized patient and service flow. - Built Professional Fee (PF) records workflows using SQL and Pandas for data processing, transformation, and reporting. - Developed QuickBooks Online integration workflows to connect financial data with internal processes and reduce manual handling. - Developed a PHILHEALTH Claims Processor in Python to automate PDF data extraction from zipped claim files, generate and merge CSV data, create claims transmittal documents, batch-process multiple claim sets, and organize claim documentation for archival. - Use Python, SQL, APIs, and database technologies to build, troubleshoot, and improve data and application workflows.	
Junior Developer <i>Cerebro Diagnostic System</i>	Apr 2024 - Sep 2025
- Contributed to full-stack development and maintenance of healthcare-related information systems. - Worked on Human Resource Management, Queueing, and Patient Information System applications using web and database technologies.	
Full-Stack Web Developer - On-the-Job Training <i>Innovuze Solution Inc. ISI Lunch Buddies App</i>	Nov 2023 - Feb 2024
Supported development of the ISI Lunch Buddies application using ReactJS, Python, FastAPI, and Node.js.	
Electrical Assembler <i>Nissan Motor Company Ltd., Japan</i>	Aug 2016 - Oct 2018

SELECTED PROJECTS

Queueing System - Internal workflow application for managing service/patient queues and operational flow.

Professional Fee (PF) Records - Data-processing and records workflow using SQL and Pandas for structured reporting and record management.

QuickBooks Online Integration - API-based integration supporting automated financial-data workflows and internal processing.

PHILHEALTH Claims Processor - Python application for COMC that automates PHILHEALTH claims document extraction, CSV generation/merging, batch processing, transmittal generation, and document organization.

Cerebro Diagnostics System Projects - HRMS, Queueing System, and Patient Information System development using PHP/Laravel/CodeIgniter, Python/Flask, JavaScript, SQL databases, WebSocket, Postman, GitHub, and GitLab.

FREELANCE EXPERIENCE

Full-Stack Web Developer | Freelance

Personalized Wedding Invitation & RSVP Platform | Justine & Nica Wedding

- Built and deployed a personalized digital wedding invitation and RSVP website with unique guest URLs, assigned party-size limits, RSVP tracking, and returning-guest status.
- Developed the backend using Python, Flask, Flask-SQLAlchemy, and SQLite, with server-side validation and personalized Jinja templates.
- Integrated Google Sheets API synchronization for guest lists, RSVP responses, and invitation links, plus Cloudinary-hosted media and Google Maps venue links.
- Configured production deployment using Docker Compose, Unicorn, Nginx, and HTTPS support.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

2019 - 2024

AMA Cagayan de Oro College

ADDITIONAL QUALIFICATION

Japanese Language Proficiency Test: N3 Passer
